MEMORANDUM FOR: Director for Public Affairs

FROM:

Director of Central Intelligence

SUBJECT:

Director's Note Item

- 1. I'd like to put out a <u>Notes From The Director</u> that summarizes the President's remarks to the Agency. Only a few people actually heard them. I don't think we ought to give a verbatim transcript but hit the highlights, with perhaps a quote or two.
- 2. Another item for this same <u>Notes From the Director</u> might be a few comments about Agee--how we recognize how serious this is, and are encouraged by the fact that his latest antics have created a strong feeling throughout the country and in portions of the Congress that we must be able to take action against this kind of treason.
